

SAFETY DATA SHEET

Product: BRITA CORD® (CORDEL DETONANTE)

Revision: 01 Date: 01/02/2016 Pages: 1 /13

1- CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Identification of the product: Brita Cord® (Cordel Detonante)

Links in takedowns primary and secondary (hot flashes) in open pit

Recommended uses: mining, underground quarries, civil works, seismographic researches,

sculptural takedowns (pre and post cut) and ornamental stone cutting.

Non available.

Restrictions on use:

IBQ Indústrias Químicas S/A

Company:

Rodovia Régis Bittencourt (BR 116), Km 01 sem número.

Address:

Bairro Florestal - Quatro Barras - Paraná

Telephone number:

55 (41) 3671-8200

Emergency

Emergence in the application: 0800 770 8099 telephone number:

Fax:

Emergencies during transport: 0800 770 8099

E-mail:

55 (41) 3672-2931

emergencia@britanite.com.br

2- HAZARDS IDENTIFICATION

Explosive; mass explosion hazard. Most important hazards:

Product effects	
Adverse effects to the human health:	Not expected.
Environmental effects:	Not expected.
Physical and chemical hazards:	Explosive; mass explosion hazard.
Chemical product-specific hazards:	Risk of explosion by friction, mechanical shock, excessive heat or flame
Important symptoms:	There are not expected symptoms following exposure to the product.
Classification of the	Explosives – Division 1.1

SAFETY DATA SHEET

Product: BRITA CORD® (CORDEL DETONANTE)

Revision: 01 Date: 01/02/2016 Pages: 2 /13

chemical product:

Globally Harmonized System of Classification and Labeling of Classification system

Chemicals (GHS), United Nations. adopted:

Adequate labeling elements:

Pictograms:

Signal word:

DANGER

Hazard statement(s):

H201 Explosive; mass explosion hazard.

P210 Keep away from heat, sparks, open flames and hot surfaces. No

smoking.

P240 Ground container and receiving equipment.

P250 Do not subject to grinding, shock and friction.

Precautionary statement(s):

P280 Wear protective gloves, eye protection, face protection.

P370 + P380 In case of fire: evacuate area.

P372 Explosion risk in case of fire.

P373 DO NOT fight fire when fire reaches explosives.

P401 Store in accordance with local, regional, national and international

regulations.

Outline of an anticipated emergency:

P501 Dispose of contents in accordance with local, regional, national

and international regulations.

EXPLOSIVE.		

3- COMPOSITION/INFORMATION ON INGREDIENTS

MIXTURE

SAFETY DATA SHEET

Product: BRITA CORD® (CORDEL DETONANTE)

Revision: 01 Date: 01/02/2016 Pages: 3 /13

Components contributing to	Components	Concentration	CAS
the hazard:		range (%)	number
ino nazura.	Pentaerythritol tetranitrate	40 - 70%	78-11-5

4- FIRST-AID MEASURES

Exposure routes	
Inhalation:	It is not expected that the product presents inhalation hazard, but if the coating is damaged and the leak of the contents occurs, remove the victim to fresh air and keep at rest in a position comfortable for breathing. If you feel unwell, contact a TOXICOLOGICAL INFORMATION CENTRE or doctor. Take this SDS.
Skin contact:	It is not expected that the product presents skin contact hazard, but if the coating is damaged and the leak of the contents occurs, wash exposed skin with large amounts of water. Wash contaminated clothing and shoes before reuse. Seek medical attention. Take this SDS.
Eye contact:	It is not expected that the product presents eye contact hazard, but if the coating is damaged and the leak of the contents occurs, rinse thoroughly with water for several minutes. In the case of use of contact lenses, remove them, if it is easy. Continue to rinse. If eye irritation persists: consult a doctor. Take this SDS.
Ingestion:	It is not expected that the product presents ingestion hazard, but if the coating is damaged and the leak of the contents occurs, rinse the victim's mouth with water. If you feel unwell, contact a TOXICOLOGICAL INFORMATION CENTRE or doctor. Take this SDS.
	Most important symptoms/effects:
	Protection of first-aiders and/or special notes to a physician:

There are not expected symptoms or effects following exposure to the product.

Avoid contact with the product to help the victim. If necessary, symptomatic treatment should comprise mainly supportive measures such as correction of electrolyte disturbances, metabolic, and respiratory care. In case of skin contact not rub the affected area.

SAFETY DATA SHEET

Product: BRITA CORD® (CORDEL DETONANTE)

Revision: 01 Date: 01/02/2016 Pages: 4 /13

In the case of explosion the impact varies and can cause injury, bruises, fractures or burns. Check the hearing of the people who were close to the explosion.

5- FIRE-FIGHTING MEASURES

T / .	. 1 .	11	
Hyfind	ภาบตกบ	no medi	a.

Do not fight fire when it reaches the load. Explosion can occur.

Specific hazards arising from the chemical product:

Do not stay near the load during extinction of fire because the load can explode. Remain at a safe distance. Very dangerous when exposed to excessive heat or other sources of ignition such as sparks, open flames or burning cigarettes and matches, welding operations, pilot lamps and electric motors. The combustion of the chemical or from containers may form toxic and irritant gases such as carbon monoxide, carbon dioxide.

Specific extinguishing methods:

Special equipment for the protection of firefighters:

If the fire reaches the load evacuate the area within a radius of at least 1600 meters, removing of the place, including emergency workers, because the load can explode.

Respiratory protective equipment like standalone (SCBA) with positive pressure and full protective clothing.

6- ACCIDENTAL RELEASE MEASURES

Personal precautions

Environmental protection:

Removal of ignition sources: Isolate the leak from sources of ignition. Prevent sparks or flames. Do not smoke.

Dust control:

It is not expected that the product releases dust, but if the coating is damaged and the leak of the contents occurs, remove the product using vacuum systems or other method that does not generate dust.

Do not touch damaged containers or spilled material without the use of appropriate clothing. Avoid inhalation, contact with eyes and skin. Use personal protective equipment as described on section 8.

Avoid spillage reaches watercourses and sewerage systems.

SAFETY DATA SHEET

Product: BRITA CORD® (CORDEL DETONANTE)

Revision: 01	Date: 01/02/2016	Pages: 5 /13
Emergency procedures and alarm systems:	It is recommended the installation of fire ala detection in storage and handling sites.	rm system and leak
Methods and materials for cleaning up:	Eliminate all sources of heat and keep away the c Signal and isolate the area. Use only anti-sparl area with the orientation of a specialist. Co containers like cardboard, plastic or wood. Ren place. For disposal, proceed according to Section	king tools. Clean the llect the product in move them to a safe
Secondary disaster prevention:	The dilution water from the fire-fighting may cau In case of large spills, immediately isolate the ar	
	in case of rarge spins, infinediately isolate the al	lea within a faulus of

the area in a radius of at least 100 meters.

7- HANDLING AND STORAGE

Differences in the action

of large and small leaks:

Technical measures for handling

Prevention of exposure of the handler:

Handle in a ventilated area or with general ventilation/local exhaustion. Avoid dust formation. Avoid breathe the product in case of dusts formation. Avoid contact with incompatible materials. To reduce the possibility of potential risk to health, only trained personnel should handle this product. Never try to dismantle the detonating cord.

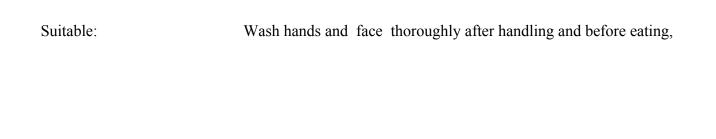

at least 800 meters in all directions. For small spills isolate and signal

Prevention of fire and explosion:

Never store or transport the product along with explosives initiators. Do not rub, do not induce mechanical shock, do not store in a confined, humid, wet or exposed to weathering, subjected to high temperatures. Preventively remove all sources of ignition. - Do not smoke. Keep container tightly closed. Keep away from heat, sparks, open flames and hot surfaces. Ground the container vessel and the receiver of the product during transfer. Do not subject to abrasion, shock or friction.

Precautions for safe handling: Avoid contact with the product. Wear protective gloves, protective clothing, eye protection, face protection as specified in Section 8.

Hygiene measures

SAFETY DATA SHEET

Revision: 01 Date: 01/02/2016 Pages: 6 /13

drinking, smoking or using the toilet. Contaminated clothing should be changed and washed before reuse.

Eat, drink or smoke when using this product. Unsuitable:

Technical measures of storage

Conditions for safe storage:	Store in a cool, ventilated area away from sources of heat and
	separated from combustible materials. Store only in specially constructed deposits for the storage of explosive material. Use electrical equipment, ventilation and lighting explosion proof. This
	product may react dangerously with some incompatible materials as mentioned in Section 10. In case of deteriorated or damaged product, contact the manufacturer for safe and proper disposal.
Conditions that must be avoided:	High temperatures and ignition sources.
Incompatible substances or mixtures:	Oxidizing agents, reducing agents, acids, alkalis and corrosive.
Packaging materials	
Recommended:	Similar to the original packaging.

8- EXPOSURE CONTROLS AND PERSONAL PROTECTION

Permissible concentration	
Occupational exposure limit	There are not established.
Biological limit:	There are not established.
Engineering controls measures:	Promote mechanical ventilation and exhaust system directly to the outside environment. These measures help to reduce exposure to the product. It is recommended make available emergency showers and eye wash in the work area.

Appropriate personal protective equipment

Respiratory protection: Use respiratory protection if ventilation or exhaust system is not

adequate.

SAFETY DATA SHEET

Product: BRITA CORD® (CORDEL DETONANTE)

Revision: 01 Date: 01/02/2016 Pages: 8 /13

Flammability: Not flammable.

Other information: Not applicable.

10- STABILITY AND REACTIVITY

Chemical stability:	The product is stable under normal conditions of temperature and pressure. The product can detonate in the presence of fire, intense heat and impact.
Hazardous reactions:	Product may detonate on impact, shock, flame or lot of heat.
Conditions to avoid:	Elevated temperatures. Incompatible materials and ignition sources.
Incompatible materials:	Oxidizing agents, reducing agents, acids, alkalis and corrosive.
Hazardous decomposition products:	Nitrogen oxides and carbon monoxide.

11- TOXICOLOGICAL INFORMATION

Acute toxicity:	It is not expected that the product presents acute toxicity.
Skin irritation/corrosion:	It is not expected that the product presents skin irritation potential.
Eye damage/irritation:	It is not expected that the product presents eye irritation potential.
Respiratory or skin sensitization:	It is not expected that the product presents respiratory or skin sensitization potential.
Reproductive cell mutagenicity:	It is not expected that the product has reproductive cell mutagenicity.
Carcinogenicity:	It is not expected that the product have carcinogenicity to humans.
Reproductive toxicity:	It is not expected that the product has toxicity to the reproduction.

It is not expected that the product presents specific target organ toxicity

Specific target organ toxicity

- single exposure.

- single exposure:

Information related to:

- <u>Pentaerythritol tetranitrate</u>:

SAFETY DATA SHEET

	The substance may cause effects on the cardio	ovascular system,
	resulting in lowering of blood pressure with fatigutheadache and dizziness.	ne, general malaise,
Specific target organ toxicity – repeated exposure:	It is not expected that the product presents specific – repeated exposure.	c target organ toxicity
Aspiration hazard:	It is not expected that the product presents aspirati	on hazard.
Toxicokinetics, metabolism and distribution:	No information is described on the toxicokinetics this product.	and metabolism of

12- ECOLOGICAL INFORMATION

Environmental effects, behavior and fate of the product

Product not classified as dangerous for the aquatic environment.

Ecotoxicity: Information related to:

- <u>Pentaerythritol tetranitrate</u>:

LC₅₀ (Daphnia magna, 48h): 8500 mg/L

Persistence and degradability: The product does not have persistence, and it is considered readily

biodegradable.

Mobility in soil: Not available.

Other adverse effects: There are not known other environmental effects for this product.

13- DISPOSAL CONSIDERATIONS

waste and/or contaminated cor	italifici alia/of packaging.

Methods of disposal to the chemical product, product

Must be disposed hazardous waste according to local regulations. The treatment and disposal evaluated should be specifically for each product. Federal, state and local laws should be consulted. Keep the remaining product in their original packaging properly sealed. Disposal should be made as provided for the product. Do not packaging. reuse empty They may contain remnants of the product and must be closed and sent for proper disposal as required for the product.

16- OTHER INFORMATION

This information had been based on the current knowledge of the product and intended to describe safety, health and environmental hazards.

The Britanite warns that the handling of any chemical substance requires the previous knowledge of its hazards by the user. It is responsibility of the product user enterprise to promote the training of its employees and contractors about the possible risks arising from the product.
